PROFESSIONAL SUMMARY

BCA graduate and aspiring Software Engineer with hands-on knowledge of **Python, FastAPI, SQL/PostgreSQL, React, Git/GitHub, Docker, AWS, and LLM/RAG technologies**. Interested in building scalable backend services, full-stack web applications, and AI-powered software solutions. Strong focus on practical development, problem solving, API development, databases, and modern AI application development. Seeking an entry-level opportunity as a **Software Engineer, Python Developer, Backend Developer, Full Stack Developer, or AI Engineer**.

TECHNICAL SKILLS

Programming: Python, JavaScript, SQL
Frontend: HTML, CSS, JavaScript, React.js
Backend: FastAPI, REST APIs, Backend Development
Database: PostgreSQL, SQL
AI / Generative AI: LLMs, RAG, LLM APIs, AI Application Development
Development Tools: Git, GitHub, Docker
Cloud: AWS
Computer Science: Data Structures & Algorithms, System Design

PROJECTS

PDF to Text Editor

Technologies: Python, Backend/API Development, PDF Processing

- Developed a software application for extracting and working with text from PDF documents.
- Implemented functionality focused on converting PDF content into editable text.
- Designed the application with a practical workflow for document processing and text editing.
- Focused on backend logic, file processing, and user-oriented functionality.

SN KISAN MART — E-Commerce Web Application

Technologies: Web Development, Frontend, Backend, Database

- Developed an e-commerce web application for product browsing and online shopping workflows.
- Implemented core e-commerce functionality and structured the application for maintainability.
- Worked with frontend interfaces, backend functionality, and database-driven application logic.
- Designed the project as a practical full-stack web development application.

CRM Software

Technologies: Python, Backend Development, SQL, Web Technologies

- Developed a CRM-oriented software project for managing customer-related information and workflows.

- Developed a CRM-oriented software project for managing customer-related information and workflows.
- Implemented application functionality for organizing and managing business/customer data.
- Worked with backend logic and database operations.
- Focused on building a structured software solution around real-world business requirements.

EDUCATION

Bachelor of Computer Applications (BCA)

K.D. Rungta College of Science & Technology, Raipur

Pt. Ravishankar Shukla University, Raipur

Graduated: 2025

CORE COMPETENCIES

- Backend API Development
- Full-Stack Web Development
- Database Management
- Problem Solving
- Data Structures & Algorithms
- AI/LLM Application Development
- RAG Application Development
- Software Development & Debugging
- Version Control
- Cloud & Containerization Fundamentals
